2. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW	
WARNING:	COMBUSTIBLE LIQUID.
	CAUSES SKIN IRRITATION.
	CAUSES SERIOUS EYE IRRITATION.
	MAY CAUSE RESPIRATORY IRRITATION.

HAZARD CLASS	HAZARD CATEGORY
FLAMMABLE LIQUID	4
SKIN IRRITATION	2
EYE IRRITATION	2A
SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE	3

PICTOGRAM(S)	

Precautionary Statements

Prevention:	Keep away from heat, sparks, open flames, hot surfaces - no smoking. Avoid breathing vapors, mist, or spray. Wash affected area thoroughly after handling. Use only outdoors or in a well- ventilated area. Wear protective gloves, eve protection, and face protection.
Response:	IF ON SKIN: Wash with plenty of water. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical attention. If eye irritation persists: Get medical attention. Take off contaminated clothing. In case of fire: Use foam, dry chemical or carbon dioxide to extinguish.
Storage:	Store in a well-ventilated place. Keep container tightly closed. Store in a well-ventilated place. Keep cool. Store locked up.
Disposal:	Dispose of contents and/or container according to Federal, State/Provincial and local governmental regulations.

Classification complies with OSHA Hazard Communication Standard (29 CFR 1910.1200) and is consistent with the provisions of the United Nations Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

See Section 11 for additional toxicological information.

3.	COMPOSITION	/ INFORMATION ON INGREDIENTS

Hazardous Component(s)	CAS Number	Percentage*

IDH number: 1937107

Ethyl 2-cyanoacrylate	7085-85-0	80 - 100
	•	

* Exact percentages may vary or are trade secret. Concentration range is provided to assist users in providing appropriate protections.

give artificial respiration. If breathing is difficult, oxygen should be administered by qualified personnel. Skin contact: Rinse with running water and soap. Do not pull bonded skin apart. It may I genty peeled apart using a blunt object such as a spoon, preferably after soaking in warm soapy water. If lips are accidentally stuck together apply warm water to the lips and encourage maximum wetting and pressure from saliva inside the mouth. Peel or roll lips apart. Do not try to pull the lips and encourage maximum wetting and pressure from saliva inside the mouth. Peel or roll lips apart. Do not try to pull the lips and encourage maximum wetting and pressure from saliva inside the mouth. Peel or roll lips apart. Do not force eye open. Mer advice should be sought in case solid particles of cyanoacrylate trapped behind the eyelid cause any abrasive damage. Eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least minutes. Seek medical attention immediately. Do not force eye open. Mer advice should be sought in case solid particles of cyanoacrylate trapped behind the eyelid cause any abrasive damage. Ingestion: Seek immediate medical attention. Do not induce vomiting. Never give anything by mouth to an unconscious person. Ensure breathing passages not obstructed. The product will polymerize rapidly and bond to the mouth making it almost impossible to swallow. Saliva will separate any solidified product in several hours. Prevent the patient from swallowing any separate mass. Symptoms: See Section 11. Notes to physician: See Section 11. turn-out gear. Keep unnecessary personnel away. In case of fire, keep containers cool with water spray. Unusual fire or explosion hazards: None	Extinguishing media:	surrounding environment. Water spray (fog), foam, dry chemical or carbon
	Special firefighting procedures:	
Hazardous combustion products: Toxic fumes. Irritating vapors. Oxides of carbon.	Unusual fire or explosion hazards:	None
	Hazardous combustion products:	Toxic fumes. Irritating vapors. Oxides of carbon.

Use personal protection recommended in Section 8, isolate the hazard area and deny entry to unnecessary and unprotected personnel.

Environmental precautions:	Do not allow product to enter sewer or waterways. Prevent further leakage or spillage if safe to do so.
Clean-up methods:	Ensure adequate ventilation. Wear appropriate personal protective equipment. Do not use cloths for mopping up. Flood with water to complete polymerization and scrape off the floor. Cured material can be disposed of as non-hazardous waste. Refer to Section 8 "Exposure Controls / Personal Protection" prior to clean up. Cured material can be disposed of as non-hazardous waste.

7. HANDLING AND STORAGE

Handling:

Prevent contact with eyes, skin and clothing. Do not breathe vapor and mist. Wash thoroughly after handling. Wash thoroughly after handling. Use only with adequate ventilation. Keep container closed. See Section 8 of the SDS for Personal Protective Equipment. Avoid contact with fabric or paper goods. Contact with these materials may cause rapid polymerization which can generate smoke and strong irritating vapors, and cause thermal burns. When using, do not eat, drink or smoke.

Storage:

Not available.

For information on product shelf life, please review labels on container or check the Technical Data Sheet.

EXPOSURE CONTROLS / PERSONAL PROTECTION 8.

Employers should complete an assessment of all workplaces to determine the need for, and selection of, proper exposure controls and protective equipment for each task performed.

Hazardous Component(s)	ACGIH TLV	OSHA PEL	AIHA WEEL	OTHER
Ethyl 2-cyanoacrylate	1 ppm STEL 0.2 ppm TWA (Respiratory sensitization) (Dermal sensitization)	None	None	None
Engineering controls:	Provide exposur	•	ventilation to maintain v	vorker exposure below
Respiratory protection:	Use NIC limit(s).	OSH approved respirato	r if there is potential to e	xceed exposure
Eye/face protection:	Wear safety glasses with side shields. Full face protection should be use the potential for splashing or spraying of product exists.		on should be used if	
Skin protection:	Use chemical resistant, impermeable clothing including gloves and either an apron or body suit to prevent skin contact. Use nitrile gloves and aprons as necessary to prevent contact. Do not use PVC, nylon or cotton. The information provided on personal protective equipment is for guidance purposes only. A full risk assessment should be conducted prior to using this product to determine the appropriate personal protective equipment to suit local conditions. Personal protective equipment should conform to the		oves and aprons as or cotton. The s for guidance cted prior to using this e equipment to suit	

9. PHYSICAL AND CHEMICAL PROPERTIES

relevant EN standard.

Physical state:	liquid
Color:	Colorless to light yellow
Odor:	irritating
Odor threshold:	Not available.
pH:	Not applicable, Mixture reacts with water.
Vapor pressure:	2.5 mbar (50 °C (122°F))
Boiling point/range:	Not determined
Melting point/ range:	Not available.
Specific gravity:	1.05 - 1.1
Vapor density:	Not available.
Flash point:	80 - 93.4 °C (176°F - 200.12 °F) no method
Flammable/Explosive limits - lower:	Not available.
Flammable/Explosive limits - upper:	Not available.
Autoignition temperature:	Not available.
Flammability:	Not applicable
Evaporation rate:	Not available.
Solubility in water:	Polymerises in presence of water.
Partition coefficient (n-octanol/water):	Not available.
VOC content:	Not available.
Viscosity:	30 - 50 mPa.s
Decomposition temperature:	Not available.

IO. STABILITY AND REACTIVITY Stability: Stable under recommended storage conditions. Hazardous reactions: Rapid exothermic polymerization will occur in the presence of water, amines, alkalis and alcohols. Hazardous decomposition products: None Incompatible materials: Water. Alcohols. Amines. Bases. Reactivity: Not available. Conditions to avoid: Keep away from heat, ignition sources and incompatible materials. Protect from direct sunlight.

11. TOXICOLOGICAL INFORMATION

Relevant routes of exposure: Skin, Inhalation, Eyes

Potential Health Effects/Symptoms

Inhalation:	May cause respiratory tract irritation. Exposure to vapors above the established exposure limit results in respiratory irritation, which may lead to difficulty in breathing and tightness in the chest.
Skin contact:	Bonds skin in seconds. May cause skin irritation. Cyanoacrylates have been reported to cause allergic reaction but due to rapid polymerization at the skin surface, an allergic response is rare. Cyanoacrylates generate heat on solidification. In rare circumstances a large drop will burn the skin. Cured adhesive does not present a health hazard even if bonded to the skin.
Eye contact:	Irritating to eyes. Causes excessive tearing. Eyelids may bond.
Ingestion:	Not expected under normal conditions of use. Not expected to be harmful by ingestion. Rapidly polymerizes (solidifies) and bonds in mouth. It is almost impossible to swallow.

Hazardous Component(s)	LD50s and LC50s		Immediate and Delayed Health Effects	
Ethyl 2-cyanoacrylate	None		Irritant, Allergen, Respiratory	
Hazardous Component(s)	NTP Carcinogen	IARC Ca	rcinogen	OSHA Carcinogen (Specifically Regulated)
Ethyl 2-cyanoacrylate	No	N	0	No

12. ECOLOGICAL INFORMATION

Ecological information:

Not available.

13. DISPOSAL CONSIDERATIONS

Recommended method of disposal:

Not available.

14. TRANSPORT INFORMATION

The transport information provided in this section only applies to the material/formulation itself, and is not specific to any package/configuration.

U.S. Department of Transportation Grou	nd (49 CFR)		
Proper shipping name:	Combustible liquid, n.o.s. (Cyanoacrylate ester)		
Hazard class or division:	Combustible Liquid		
Identification number:	NA 1993		
Packing group:	III		
International Air Transportation (ICAO/IA	TA)		
Proper shipping name:	Aviation regulated liquid, n.o.s. (Cvanoacrylate ester)		
Hazard class or division:	9		
Identification number:	UN 3334		
Packing group:			
Exceptions:	Primary packs containing less than 500ml are unregulated by this mode of transport and may be shipped unrestricted.		

Water Transportation (IMO/IMDG)

Proper shipping name: Hazard class or division: Identification number: Packing group: Not regulated None None None

15. REGULATORY INFORMATION

United States Regulatory Information

TSCA 8 (b) Inventory Status: TSCA 12 (b) Export Notification:	All components are listed as active or are exempt from listing on the Toxic Substances Control Act (TSCA) inventory. None above reporting de minimis
CERCLA/SARA Section 302 EHS:	None above reporting de minimis. Hydroquinone (CAS# 123-31-9). Boron trifluoride dihydrate (CAS# 13319-75-0). Boron trifluoride (CAS# 7637-07-2).
CERCLA/SARA Section 311/312: CERCLA/SARA Section 313:	Reactive, Fire, Immediate Health, Delayed Health None above reporting de minimis.
California Proposition 65:	No California Proposition 65 listed chemicals are known to be present.
Canada Regulatory Information	
CEPA DSL/NDSL Status:	Contains one or more components listed on the Non-Domestic Substances List. All other components are listed on or are exempt from listing on the Domestic Substances List. Components listed on the NDSL must be tracked by all Canadian Importers of Record as required by Environment Canada. They may be imported into Canada in limited quantities. Please contact Regulatory Affairs for additional details.

16. OTHER INFORMATION

This safety data sheet contains changes from the previous version in sections: New Safety Data Sheet format.
