To Whom It May Concern:

In response to your request for a Safety Data Sheet (SDS) for All Plastix 4ml Pen Activator, we offer the following information:

The material in question is an "article" as defined by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) and is a "manufactured article" as defined by the Canadian Hazardous Products Act (R.S.C., 1985, c. H-3) and as such is exempt from the requirement for creation of a SDS.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c):

*Article* means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

All Plastix 4ml Pen Activator consists of an applicator with a saturated wick and as an article does not have an intended release in the application or use of the product. Any product which meets the definition of an "article" or a "manufactured article" is exempt from the requirement to provide a SDS.

Find our SDSs on the Internet at [www.henkelna.com/industrial/msds-search-5120.htm](http://www.henkelna.com/industrial/msds-search-5120.htm)

If you have any questions, please contact the undersigned at (440) 250-7700

Sincerely,

A handwritten signature in black ink, appearing to read "Dana..." followed by a stylized flourish.
